NATURE AND SCOPE OF RISKS

Cheakamus Centre's learning environment involves inherent risks that may be different or greater than those found in a normal school setting. Each program has been designed to provide appropriate experiences and challenges given the age of the participants and program staff strive to minimize risk of injury or harm to participants.

On-site programming activities involving risk include, but are not limited to: caving, low ropes challenge course, archery, canoeing, hiking, water and farm-based field studies, cooking over open fires including the use of hot rocks, and working with traditional tools. Some age-appropriate programs may also involve exploring sensitive content such as the effects of the residential school experience.

Risks associated with these activities include but are not limited to: exposure to inclement weather, slipping, falling from a height, insect or animal bites, being struck by falling objects, immersion in cold water, injury from tool use, uneven terrain, walking alongside and in streams, social-emotional or economic losses due to actions of others, loss or damage of personal property, injury, illness, or death. Accidents can be the result of the nature of the activity and can occur without any fault on the part of the student, the School Board or its employees or contracted agents.

Parent/Guardian and Participant Agreement: *(Please review the following expectations with your child)*

We understand and agree that participation in Cheakamus Centre activities requires the Participant to:

- Share the responsibility for the safety of their self and others during all activities.

- This Agreement will be governed and interpreted in accordance with the laws of British Columbia.
